**Ämne:** Letter from FANERDUN

Dear all,

Below is a letter from our headquarter to you. Please check.  
 You quick response is highly appreciated. Thanks

TO : Kalmar Municipality, ISA

Our company is constructing a Chinese commodity wholesale market in the southern city of Sweden, Kalmar. It is to build a commercial trade platform between the East and the West as well as to facilitate the bilateral economic and cultural communications. The project provides an extraordinarily big opportunity and it is firmly believed that we are able to do it better and successful. Because it is an international project, more practical problems will be confronted. For instance, working visa and permanent residency applications from investors. (In order to maintain the project, ISA and other relevant departments should give us a clear response and provide necessary support on it, otherwise we can not continue.) In addition, it is highly appreciated that relevant personnel from your side can come to China in the near future to

2007-11-28

discuss the matter further.

Looking forward to hearing from you.

Fanerdun Co., Ltd
